

Out of Love for Mother Earth

Emerald Heart Earth Healing Meditation and Water Healing Ceremony

Saturday, 18th October, 11am – 2pm appr.

Investment: 60,- EUR (incl. Essence and VAT)

Where: Wessobrunn (ca. 50 kms south-west of Munich)

Humans have lost their connection with their heart and as a result of this their connection with the Earth and the Earth Mother. In order to move forward in our evolution as a human species it is imperative to remember who She is, how she works in our lives and find our way back to Her: She is a living Goddess and Creator of everything on our planet. We are part of Her and in order to help raise and balance the energies of the Divine Feminine we need to give her back the place she deserves in our lives.

In this outdoor event you will experience the Emerald Heart Light, which will help you to open your heart at a deeper level and in turn, in collaboration with the Mother, open you deeper into her heart.

We will meditate in nature and offer her our gratitude and love. We will further conduct a healing ceremony and send our Healing Prayers to the sacred sources of Wessobrunn. You will be shown simple but powerful practices how to be in service to her, that will help you to reconnect and how in turn, receive healings from Her. You will be supported by a Vibrational essence.

With Love,
