## What past participants are sharing about the Course:

“The 13 Moons has helped deepen my spiritual life and practice, enabling changes that have been both subtle and profound. This year it is as though I have had someone (God I like to think,) knocking at my door and the knocking became louder and louder if I didn't listen, with life becoming more challenging until I did. I think this was always the case but I hadn't heard it so clearly before. I now have a better understanding of the lessons I am being offered and once I have learnt from them, I feel a release, until the next ones arise or the ones I thought I had learnt come back in another way. I have experienced a rollercoaster of emotions yet felt safe and nurtured throughout. I feel a stronger connection to the earth, which is extremely comforting.”

Phillipa

“The 13 Moons course was fantastic, there were moments of happiness and moments of desperation and gloom but those moments always somehow seemed to pass. Each month as I became caught up in life it brought me back and kept realigning. The word that feels right is grounding. Thanks.”

Andrew

“There are many aspects of myself I have met on my first 13 Moons journey. For me this experience has been difficult, as I spent much of the year feeling unbalanced – caught between my resistances, my family stories, my hopes for a new future, my intense need for authentic self expression, and my fears to face in bringing all of this into awareness to release and move on. At times it has felt like prising my terrified and frozen fingers from off the cliff face they have been hanging onto for lifetimes. Yet aspects of my life also tell another story: letting go of a university post I no longer need to fulfill me, completely new resources materializing when I need them, new information and educational opportunities opening up, a deeper connection with Nature, the courage to risk new ventures, and my clients overcoming obstacles that were seemingly insurmountable, and a lovely energy in my home that people really notice. Much of my old life has fallen away, though as yet I do not feel the work is anywhere near completed, and there is much more awakening to do. Maybe there always will be, but I have many moments when I feel joyful for no particular reason, for the opportunity to be myself in this lifetime, and everything around me sparkles.”

Alyss

“Participating in the 13 Moons of Transformation has been amazing. A lot of anxieties and fears and frustration have come to the surface. I now see that dissolving all this brought me closer to myself, which was what I asked for. The core of my being is more at peace. I have more patience and am able to accept things as they come (most of the time). I always used to say when bad things happened to me it would toughen me, which I saw as a good thing because I saw no other way to survive this life. Now I feel I am much softer. At the moment I feel more unconditional love for people around me, even though we may disagree about something or see things differently. I more and more want to show the world love...

I feel very supported by the Light and I am grateful for that. Due to the essences I've taken on the course I was able to get in touch with a fear hidden deep in my heart. A fear of life or perhaps a very strong belief that I had no right to live, let alone grow into a happy me. I now find myself wanting to do things that help me grow, looking forward to a bright future. Attending the 13 Moons of Transformation course has been the best investment yet in my life.”
